

Vehicle Registration

Station Medical Center requires all tenants to register their employees' vehicles and to have a parking permit visible on the windshield under the rearview mirror.

Further, SMC monitors parking due to the limited number of spaces. Any employee who parks in a "customer" space will be cited. A warning will be issued for the first two violations and records kept on file. The third ticket will constitute a \$10 surcharge to the employer/SMC tenant.

Please contact us at the email below to obtain a parking permit—
